

Reconcile Smart

ABOUT US

Inveck (AK Finserv Group Company) is owned and managed by **Inveck India Private Limited**. **Inveck** has been founded by qualified Chartered Accountants & Information Technology experts to add mobility & artificial intelligence to asset control. We, as an organization are providing solutions to industries across various sectors like automotive, pharma, service, etc. to automate/outsource the inventory & asset verification process through **Inveck**. **Inveck** automates all physical verification operations, including multiple stock counts, blind stock takes, variance reports & more.

Business Overview

2,000+
Users

10 Cr + quantities
covered

10,000 Crore+
value covered

Used in 3+
Countries

What Inveck does?

Enables organization to **Digitize** inventory/assets verification & reconciliation

1. Data Integrity
2. Strategic Approach
3. Audit Trail Real Time
4. Variances
5. Faster Reconciliation

PROBLEM Statement | Inventory Verification

Inveck

App or not, stock gets physically verified.
Problem is MANUAL PROCESS followed.

Leading to delayed results

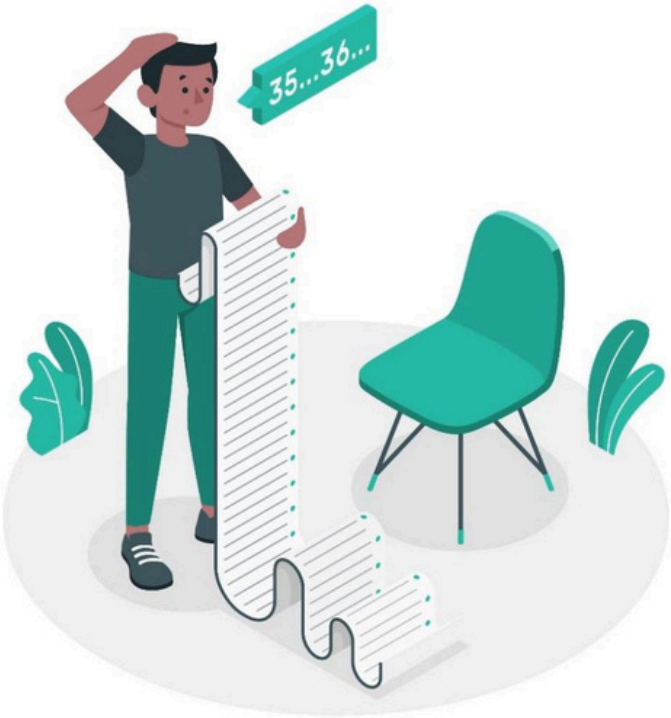

Piles of paper documentation

While verification

- Manual counting of barcoded/tagged inventory
- Carrying laptop, calculator, pen & papers
- Limited data can be printed & carried

Post Verification

- Delays in Reporting
- Collation of Data from different team members
- Loss of Audit Evidence

Value Proposition: Periodic/Cycle Counts

Upload

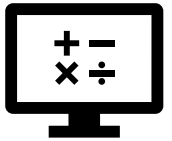

Daily/Weekly/Monthly Inventory list to be uploaded (if not integrated) between the schedule for count

Count

Physical count to be entered on Inveck Mobile App as per uploaded SKUs

Variances

Inventory data to be fetched/uploaded on daily basis for variance analysis viz physical count

Movement Report

Upload the movement report from ERP/ WMS to get the adjusted system stock in Inveck application

Variance Reports

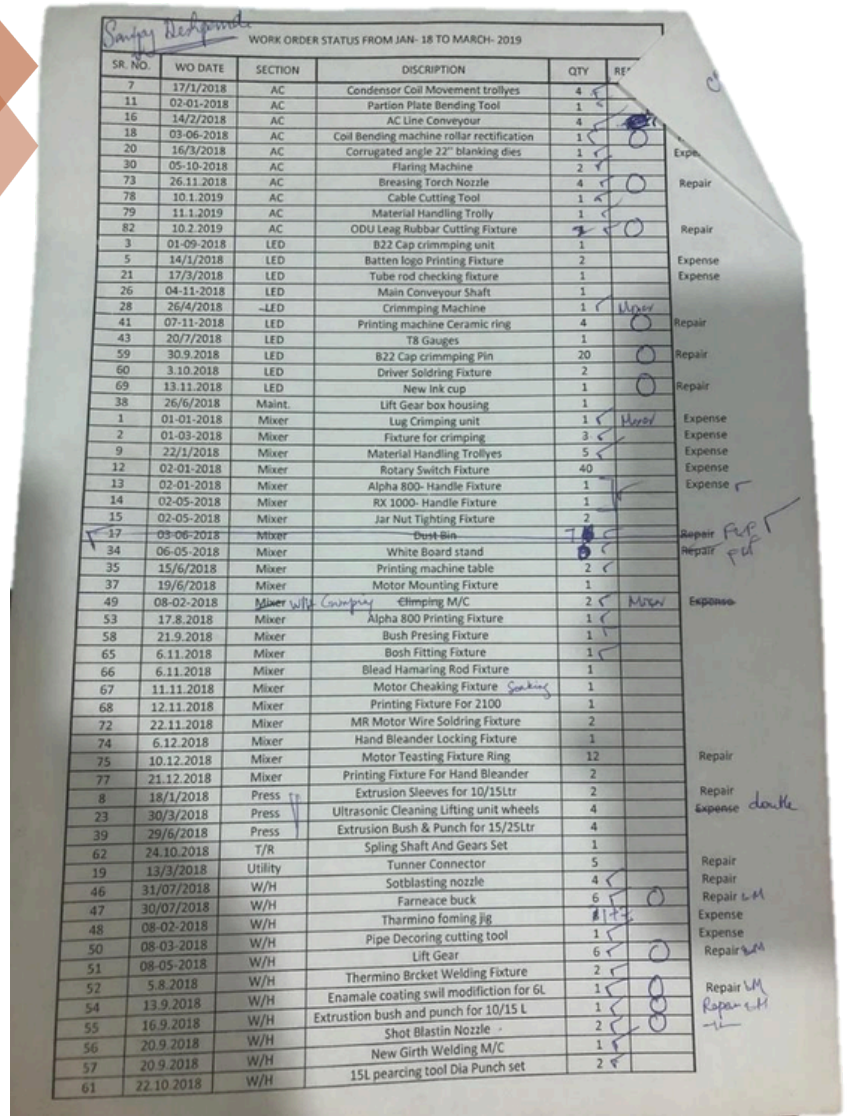

Consolidated variance reports for downloading periodic/ cycle count data

Hierarchy Reports

Reports based on hierarchy and predefined parameters for effective management decision-making.

Visible value changes

BENEFITS ACCRUING

Inveck

Execution

- [ ] Increased accuracy through part code, location and process filter
- [ ] Enhanced accountability with date, time & verifier audit stamp
- [ ] Real time view of ongoing floor activity
- [ ] 3x faster analysis and improved re-count action
- [ ] Analytics and Insights over regular shortage SKUs

Finalization

- [ ] Automated consolidation of data from all warehouses
- [ ] Reconciliation report on real time basis
- [ ] Resume production/product movement activities faster
- [ ] Get Location wise/ SKU wise variance report in one click
- [ ] Historic data of your stock counts & variance on click
